VISION

Quality, life long education for all which is accessible, inclusive and relevant to individual, national and global needs and value systems.

Preface

The syllabus was produced as a result of the Curriculum review process carried out by the Ministry of Education, Science, Vocational Training and Early Education under the auspices of the Curriculum Development Centre (CDC). The curriculum reform process started way back in 1999 when the Ministry of Education commissioned five (5) curriculum studies which were conducted by the University of Zambia. These studies were followed by a review of the lower and middle basic and primary teacher education curriculum. In 2005 the upper basic education National survey was conducted and information from learners, parents, teachers, school managers, educational administrators, tertiary institutions traditional leaders civic leaders and various stakeholders in education was collected to help design a relevant curriculum .,

The recommendations provided by various stakeholders during the Upper Basic Education National survey of 2005 and National symposium on curriculum held in June 2009 guided the review process.

The review was necessitated by the need to provide an education system that would not only incorporate latest social, economic, technological and political developments but also equip learners with vital knowledge, skills and values that are necessary to contribute to the attainment of Vision 2030.

The syllabus has been reviewed in line with the Outcome Based Education principles which seek to link education to real life experiences that give learners skills to access, criticize analyze and practically apply knowledge that help them gain life skills. Its competences and general outcomes are the expected outcomes to be attained by the learners through the acquisition of knowledge, skills, techniques and values which are very important for the total development of the individual and the nation as a whole.

Effective implementation of Outcome Based Education requires that the following principles be observed: clarity of focus, Reflective designing, setting high expectations for all learners and appropriate opportunities.

It is my sincere hope that this Outcome Based syllabus will greatly improve the quality of education provided at. Junior Secondary School as defined and recommended in various policy documents including Educating Our Future`1996 and the `Zambia Education Curriculum Framework `2013.

Chishimba Nkocha
Permanent Secretary
MINISTRY OF EDUCATION, SCIENCE, VOCATIONAL TRAINING AND EARLY EDUCATION.

Acknowledgement

The syllabus presented here is a result of broad-based consultation involving several stakeholders within and outside the education system.

Many individuals, institutions and organizations were consulted to gather their views on the existing syllabus and to accord them an opportunity to make suggestions for the new syllabus. The Ministry of Education wishes to express heartfelt gratitude to all those who participated for their valuable contributions, which resulted in the development of this syllabus.

The Curriculum Development Centre worked closely with other sister departments and institutions to create this document. We sincerely thank the Directorate of Teacher Education and Specialized Services, the Directorate of Planning and Information, the Directorate of Human Resource and Administration, the Directorate of Open and Distance Education ,the Examinations Council of Zambia, the University of Zambia, schools and other institutions too numerous to mention, for their steadfast support.

We pay special tribute to co-operating partners especially JICA and UNICEF for rendering financial technical support in the production of the syllabus.

INTRODUCTION

This syllabus has been produced against the background of National Policy on Education Document (1996) **Educating Our Future**. In the National Policy on Education Document, Business Subject is stressed as essential for starting and running a business, for work and entrepreneurship. It incorporates the acquisition of both academic and entrepreneurship skills.

TEACHING METHODOLOGIES

The methodologies to be used shall be:

- a) Teacher exposition
- b) Question and answers
- c) Group/pair activities (Project work- company formation)
- d) Educational visits (visits to various relevant sites)
- e) Teaching/learning aids to help pupils understand the topics
- f) Role play
- g) Debate

TIME ALLOCATION

The Business Studies syllabus comprises of a two-year course thus, Grade 8 and 9. Four (4) periods of 40 minutes each per week arranged as one (1) double and two (2) singles.

ASSESSMENT

The assessment in Business Studies shall be conducted as follows:

- a) Home work
- b) Class quizzes
- c) Mid-Term Tests
- d) End of Term Examinations
- e) Final (National) Examination (Grade 9).

RATIONALE

The purpose of Business course is to provide the learner with some basic knowledge, productive skills and positive values and attitudes on financial, commercial and entrepreneurial ideas necessary for making effective economic and social decisions. This will assist in developing the learner's interest and talent in business through critical evaluation rather than by just accepting information as facts. It will also assist the learner to appreciate business education as a tool for national development.

GENERAL OBJECTIVES OF BUSINESS STUDIES SYLLABUS

- a) Acquire entrepreneurial knowledge, skills, positive attitudes and values in order to enhance running of business ventures.
- b) Attain knowledge, skills and values in order to competently perform office procedures and financial tasks.

GRADE 8 BUSINESS STUDIES
